Noman Khan

Machine Learning Engineer

Passionate BS Data Science student with a strong commitment to Machine Learning and practical expertise in developing ML models. Proficient in data preprocessing techniques and well-versed in the essential steps of ML model building. Eager to collaborate with research engineers, contribute to meaningful ML projects, and drive innovation in the dynamic field of data science. Committed to continuous learning and expanding knowledge to stay at the forefront of this rapidly evolving domain.

Address
Hostel 3 cofee shoap road
Universty of Peshawar

Education

2020
FSc(Pre-Engineering)
Peshawar Science School and College

2021-2025(expected)
BS Data Science
University Of Engineering And Technology Peshawar

Expertise

- Machine Learning
- Data Preprocessing
- Data Analysis
- Model Selection

Language

English

Urdu

Experience

2022 - till date
Self-taught ML practitioner.

Executed 2 ML projects with precise models. Achieved high accuracy in house price and car price prediction. Demonstrated proficiency in data analysis, feature engineering, and model selection. Consistently delivered reliable and valuable insights through rigorous ML methodologies.
